SUMMARY

ASP.NET Developer and Backend .NET Developer with hands-on experience developing ASP.NET Core MVC and Web API applications using C#, Entity Framework Core, SQL Server, and RESTful APIs. Experienced in Clean Architecture, database optimization, and building scalable enterprise applications.

EXPERIENCE

Tabib Soft – Medical Software Solutions

September 2025 – Present

Backend .NET Developer

Egypt

- Developed ASP.NET Core MVC and ASP.NET Core Web API applications using C#, Entity Framework Core, SQL Server, and RESTful APIs.
- Designed and implemented RESTful APIs for healthcare, CRM, insurance, and contract management systems.
- Optimized SQL Server databases through efficient queries, stored procedures, and performance tuning.
- Implemented business logic, authentication, authorization, and secure data access for enterprise applications.
- Developed reporting modules, workflow automation, and database integrations to support business-critical operations.
- Diagnosed production issues, fixed bugs, and continuously improved system performance, scalability, and maintainability.

PROJECTS

Task Management System | ASP.NET Core Web API

- Built a RESTful API for task and project management using ASP.NET Core Web API and SQL Server.
- Implemented JWT Authentication, KPI evaluation, Firebase notifications, and PDF reporting.
- Applied Entity Framework Core, LINQ, and deployed the database to MonsterASP.

E-Commerce System | ASP.NET Core Web API | MVC

- Developed a scalable E-Commerce API following Clean Architecture and N-Tier Architecture.
- Implemented authentication, products, categories, orders, carts, and role-based authorization.
- Used Entity Framework Core, Repository Pattern, and SQL Server.

HR & Attendance Management System | ASP.NET Core MVC

- Developed an HR management system to manage employees, attendance, and organizational workflows.
- Integrated fingerprint attendance devices to record employee check-in and check-out automatically.
- Implemented attendance calculations, working hours, overtime, lateness, and leave tracking.

TECHNICAL SKILLS

Backend: ASP.NET Core MVC, ASP.NET Core Web API, RESTful APIs, LINQ, Entity Framework Core

Languages: C#, Java, JavaScript

Database: SQL Server

Architecture: Clean Architecture, Repository Pattern, N-Tier Architecture

Tools: Git, GitHub, Postman

Frontend: HTML, CSS, React.js (Basics)

EDUCATION

Faculty of Science, Menoufia University

2021 – 2025

Bachelor of Science in Computer Science

Egypt

CERTIFICATIONS

Digital Egypt Pioneers Initiative (DEPI)

Apr 2024 – Oct 2024

React Web Developer Intern

LANGUAGES

Arabic: Native

English: Intermediate (B1–B2)
